Software Developer (RATSS) - Internship

Software Developer – 3III`s Ltd

We are looking to expand our IT Team through a diverse set of people who will work alongside other experienced developers in a supportive environment and gain exposure to a broad range of technologies during 6 months` internship. We have been working on the company`s infrastructure based on a core platform of Microsoft SQL, JAVA, VB, and Groovy. This architecture integrates in real time to Business Object Visualization systems.

This is an excellent opportunity for a bright, talented technology enthusiast to contribute to both short and long-term development projects.

We have a very strong aggressive roadmap (SCRUM) to speed up the rollout of our strategy by expanding our core team.

Areas of Platform work

•Tailored Portals for Clients, Management & Employees.

•Mapping & GPS Realtime Systems

•Shopping Based & Resource Planning

•Paperless System

•Metric & KPI Dashboards (RTS)

•Automated Response Events based on text, email and voice platforms

Desirable:

- Experience in SQL using Microsoft SQL server 2000/2008.
- Front-End: Html, CSS, Java Script, JQuery, ajax.
- Server side: PHP, Groovy,
- GPS / Geolocation and Tracking System
- Worked with Intrexx Platform
- Real-time Data Visualization systems and Dashboards

Compensation & Benefits

•Accommodation (All Inclusive)
Executive Professional Suite Located in Central Swindon, fully furnished with all amenities catered for,

- SKY Premium TV
- WiFi Access

•Gym Membership

- Fitness Suite
- Pool
- Fitness Programs

•RAT Powered Bikes
3III`s promotes a smarter and healthier lifestyle. We provide a bike for the use commuting to work.

•Company Events
Interns guarantee a fresh and young environment. 3III`s encourages people to interact and have fun and that starts with our team! From an in-house "Google room" to exciting events, we are a hugely social company that aims to create the perfect balance between work and team-building.

Company Activity

3III`s was incorporated in January 2015 from an idea based on the unique power an international intern offers to the UK business market. Before the formation of 3III's an intern model was run under a large Security Organisation which allowed the test bed of more than 100 interns from all round the world. 3III's is the evolution of this model to become a highly innovative and dynamic company where we crave interns ability to development at a phonetic pace suited to the career orientated person without limits and only the best need apply.
